Software Engineer — Frontend Developer — React.js — Node.js

SUMMARY

Software Developer with 3+ years of experience designing and optimizing scalable web applications using React.js, Node.js, and cloud technologies. Skilled in building performant user interfaces, automating workflows, and improving software reliability through robust testing and CI/CD practices.

PROFESSIONAL EXPERIENCE

Software Development Engineer 2 (Current Role)

Mar 2024 – Present

Devo

Noida, India

- Migrated a **50K+ line production codebase** from React 16 to React 18 with zero downtime, ensuring full backward compatibility.
- Engineered **interactive automation workflows** using **JointJS**, empowering users to visually design and manage complex logic flows.
- Optimized frontend build pipeline with Webpack and lazy loading, reducing initial bundle size by **50%** and improving load times.
- Developed and maintained 100+ unit and integration tests using AI-assisted tools (**Cursor**), enhancing release reliability.

Founding Software Engineer

Sep 2023 – Feb 2024

Lumino Labs

Noida, India

- Architected and launched the **Lumino Shopify App**, combining analytics dashboards and revenue optimization mini-apps for D2C brands.
- Collaborated directly with CTO and founders to define product requirements and deliver MVP in under 6 weeks.
- Implemented analytics pipelines and **data visualization** systems to deliver actionable insights for partner brands.
- Optimized API performance and enhanced caching mechanisms to minimize data retrieval latency.

Software Developer Intern

Jan 2023 – Sep 2023

Byju's Exam Prep

Noida, India

- Designed and deployed a feature allowing teachers to create and assign mock tests, streamlining content delivery.
- Redesigned live class UI components, enhancing engagement and interaction metrics by **30%**.
- Developed scalable full-stack modules using **React.js**, **Express.js**, and **GraphQL** to enhance content management and API efficiency.

EDUCATION

Bachelor of Technology, Computer Science and Engineering

Aug 2019 – Jun 2023

JSS Academy of Technical Education

Noida, India

- Graduated with 8.7 CGPA; coursework included Data Structures, Cloud Computing, and Full-Stack Web Development.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, Kotlin, HTML, CSS, Liquid

Frameworks/Libraries: React.js, Node.js, Express.js, GraphQL, Webpack, Redux, ANT Design

Databases: PostgreSQL, MySQL, BigQuery, Redis

Tools & Cloud: AWS Lambda, Google Pub/Sub, Cloudflare, Git, GitHub, CI/CD, REST APIs, Agile/Scrum

PROJECTS

Lumino – Google Analytics (GA4 Integration) | AWS Lambda, Pub/Sub, Node.js, Shopify

Feb 2023

- Developed serverless middleware to sync Shopify event data with GA4, Clevertap, and HubSpot, ensuring 100% event reliability.
- Implemented serverless architecture with **AWS Lambda** and **Google Pub/Sub** for asynchronous event processing and scalability.
- Automated CI/CD pipelines using **GitHub Actions** to ensure reliable, zero-downtime deployments.
